## FINANCIAL OFFER TEMPLATES

### UNIT PRICE CONTRACTS

#### Content

4.3.1 — Introduction

4.3.2 — Bill of Quantities

LOT 1

LOT 2

4.3.3 — Price Schedule

4.3.4 — Daily works Schedule

## VOLUME 4. — INTRODUCTION

### 1. General

- 1.1 The Bill of Quantities (Volume 4.3.2) is the document containing an itemised breakdown of the works to be carried out in a unit price contract, indicating a quantity for each item and the corresponding unit price. The quantities set out in the Bill of Quantities are estimated quantities. Each price for each item of the Bill of Quantities is detailed in the Price Schedule (Volume 4.3.3).

The amounts due will be calculated by measuring the actual quantities of the works executed and by applying the unit rates to the quantities actually executed for each item.

- 1.2 The Detailed Breakdown of Prices (Volume 4.3.5) is the list containing the basic costs, net costs and mark-ups from which each price on the Bill of Quantities and the Price Schedule and on the Daywork Schedule results.

The Detailed Breakdown of Prices provides the coefficients for applying the price revision formula referred to in Article 48.2 of the Special Conditions and can provide the basis for valuation of additional work ordered referred to in article 37.5 of the General Conditions.

- 1.3 Provisional sums for use when works are to be executed on a daily work basis (Volume 4.3.4) can only be executed by administrative order of the Supervisor in accordance with the terms of the Contract.

### 2. Specific to Volumes 4.3.2, 4.3.3 and 4.3.4

- 2.1 The prices inserted in the Bill of Quantities and Price Schedule are to be the full inclusive values of the works described under the items, including all costs and expenses that may be required in and for the construction of the works described, together with any temporary works and installations which may be necessary and all general risks, liabilities and obligations specified or implied in the documents on which the tender is based. It will be assumed that establishment charges, profit and allowances for all obligations are spread evenly over all unit rates.
- 2.2 Save where the technical specifications or the Bill of Quantities and the Price Schedule specifically and expressly state otherwise, only permanent works are to be measured.
- 2.3 No allowance will be made for loss of materials or volume thereof during transport or compaction.
- 2.4 The prices do not include taxes and fiscal duties, as exoneration is explicitly given for the contract. Non-exonerated taxes and fiscal duties are covered in the prices of the Bill of Quantities, Price Schedule and Daily work Schedule, apart from those stated separately in the financial offer templates.

2.5 The units of measurement used in the annexed technical documentation are those of the International System of Units (SI). No other units may be used for measurements, pricing, detail drawings etc. (Any units not mentioned in the technical documentation must also be expressed in terms of the SI.) Abbreviations used in the bill of quantities are to be interpreted as follows:

mm	means	millimetre
m	means	metre
mm <sup>2</sup>	means	square millimetre
m <sup>2</sup>	means	square metre
m <sup>3</sup>	means	cubic metre
kg	means	kilogram
to	means	tonne (1000 kg)
pcs	means	pieces
h	means	hour
L.s.	means	Lump sum
km	means	kilometre
l	means	litre
%	means	per cent
N.d	means	nominal diameter
m/m	means	man-month
m/d	means	man-day

**VOLUME 4.3.3 – PRICE SCHEDULE**

<b>PRICE N° 101</b>	
<b>Title : STAKING OUT OF THE ROUTE AND OF THE STRUCTURES</b>	
<p>Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.</p> <p>This price is for Staking out of the route and of the structures</p> <p>The price includes:</p> <ul style="list-style-type: none"><li>-all geodetic survey</li><li>-transferring the data from the design onto the field or vice versa,</li><li>-provisions for the axis of the staked out route,</li><li>- profiling, renewal and maintenance of staked out marks on the field during the whole construction period. The work includes</li><li>-Staking out of the route map and of the structures</li><li>-production of the geodetic map of as-builts</li></ul> <p>This Price is per kilometer of route</p>	
<b>PRICE N° 101- TITLE: : STAKING OUT OF THE ROUTE AND OF THE STRUCTURES</b>	
<b>Price in words:</b>  per kilometer: ..... HRK	<b>Price in numbers:</b>  : ..... HRK

**PRICE N° 102**

**Title : REMOVAL OF SHRUBS AND TREES**

Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.

This price is for : REMOVAL OF SHRUBS AND TREES

The price includes:

- cutting brushwood and trees of all sizes,
- cutting off the branches,
- cutting of trees and thick branches to the length appropriate for transportation,
- extracting roots,
- brushwood and old stumps,
- extracting stumps of newly cut trees,
- hauling of brushwood, branches, logs and stumps outside the road section, to the dump area at the distance up to 15 km.

This Price is per square meter of area for brushwood and per piece for woods with roots

**PRICE N° 102- TITLE: : REMOVAL OF SHRUBS AND TREES**

**Price in words:**

per square meter: ..... HRK  
per piece: ..... HRK

**Price in numbers:**

: ..... HRK

<p><b>PRICE N° 103....</b></p> <p><b>Title : ... Removing brushwood and branches</b></p>	
<p>Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.</p> <p>This price is for <b>Removing brushwood and branches</b>.</p> <p>The price includes:  - Removing brushwood and branches</p> <p>This Price is per square meter</p>

.... HRK

**PRICE N° 105...**

**Title : ... DISMOUNTING OF EXISTING STRUCTURES**

Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.

This price is for: DISMOUNTING OF EXISTING STRUCTURES, TRAFFIC SIGNS, CONCRETE CURBSTONE, BILBOARDS AND THE OTHER

The price includes:

- Demolition,
- excavation,
- loading,
- transport to dump and organization of dump for removed pavement structure,
- curbstones,
- concrete hollow tiles,
- gutters and dismounting of existing traffic equipment.

This Price is per square meter

**PRICE N° 105... - TITLE DISMOUNTING OF EXISTING STRUCTURES**

**PRICE N° 118**

**Title : MECHANICAL COMPACTION OF THE FOUNDATION SOIL**

Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.

This price is for **MECHANICAL COMPACTION OF THE FOUNDATION SOIL**

The price includes:

- transportation of surplus topsoil material,
- dredged material from the excavation and all waste material to the point of unloading at the landfill
- loading,
- unloading,
- spreading and planning

This Price is for per square meter \_\_\_\_\_

**PRICE N° 118- TITLE: : MECHANICAL COMPACTION OF THE FOUNDATION SOIL**

**Price in words:**

per square meter: ..... HRK

**Price in numbers:**

.... HRK

**PRICE N° 119**

**Title : REPLACEMENT OF LOW BEARING FOUNDATION**

Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.

This price is for **REPLACEMENT OF LOW BEARING FOUNDATION SOIL WITH BETTER MATERIAL**

The price includes:

- excavation of low bearing material in foundation,
- transport to landfill,
- transport and instalation of crushed stone material

This Price is for per cubic meter

**PRICE N° 119- TITLE: : REPLACEMENT OF LOW BEARING FOUNDATION**

<b>Price in words:</b>  < per square meter: ..... HRK	<b>Price in numbers:</b>  <: .... HRK>

<b>Title : EXECUTION OF DRAINAGE OPENINGS</b>	
<p>Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.</p> <p>This price is for: <b>EXECUTION OF DRAINAGE OPENINGS</b></p> <p>The price includes:</p>	

-supply and execution of a thin layer of graded stone material 30/60 mm as an extension of the subbase of the , pavement structure in the shoulder width, on both sides, or only in the width of the lower shoulder, to the manually levelled base, thickness is 0.20., -,

This Price is for per cubic meter

**PRICE N° 124- TITLE: EXECUTION OF SHOULDERS OF EARTH MATERIAL**

**Price in words:**

per square meter: ..... HRK

**Price in numbers:**

.... HRK

**PRICE N° 126**

**Title : EXCAVATION FOR FOUNDATIONS OF CULVERT**

Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.

This price is for: **EXCAVATION FOR FOUNDATIONS OF CULVERT**

The price includes:

- foundation and trench excavation for the
- loading,
- transport and disposal of dredged material to the landfill.

This Price is for per cubic meter

**PRICE N° 125- TITLE: EXCAVATION FOR FOUNDATIONS OF CULVERT**

**Price in words:**

per square meter: ..... HRK

**Price in numbers:**

.... HRK

**PRICE N° 127**

**Title : INSTALLATION OF TAMPON GRAVEL LAYER**

Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.

This price is for: **INSTALLATION OF TAMPON GRAVEL LAYER FOR CULVERT FOUNDATIONS**

The price includes:

- procurement of natural stone or crushed granular material quality
- distribution according to design requirements and GTC,
- shipping,
- transportation
- installation (machine-spreading, planning and compacting to the required compressibility modulus)

This Price is for per cubic meter

**PRICE N° 127- TITLE: INSTALLATION OF TAMPON GRAVEL LAYER**

**Price in words:**

per square meter: ..... HRK

**Price in numbers:**

.... HRK

**PRICE N° 128**

**Title : INSTALLATION OF CONCRETE PIPES FOR CULVERTS**

Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.

This price is for: **INSTALLATION OF CONCRETE PIPES FOR CULVERTS**

The price includes:

- Installation of pipes for concrete culvert Ø1000mm according to details in the design
- Pipes are installed on already prepared concrete foundation in designed slope,
- Backfilling of the trench may begin only after the supervising engineer receives installed pipes and the same before that must undergo a control test - under the regulations for sewage works
- pipe joints

This Price is for per square meter \_\_\_\_\_

**PRICE N° 128- TITLE: INSTALLATION OF CONCRETE PIPES FOR CULVERTS**

**Price in words:**

per square meter: ..... HRK

**Price in numbers:**

.... HRK

**PRICE N° 129**

**Title : CONSTRUCTION OF THE SPANDREL WALLS OF CONCRETE CULVERT**

Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.

This price is for: **CONSTRUCTION OF THE SPANDREL WALLS OF CONCRETE CULVERT**

The price includes:

- procurement and delivery of concrete
- all transportation and transfers
- preparation and dismantling of form work ,
- mounting of concrete and concrete care,
- and all other necessary materials.

This Price is for per cubic meter

**PRICE N° 129- TITLE: CONSTRUCTION OF THE SPANDREL WALLS OF CONCRETE CULVERT**

**Price in words:**

per cubic meter: ..... HRK

**Price in numbers:**

.... HRK

**PRICE N° 130**

**Title : CONCRETING OF THE PIPE CULVERT LINING**

Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.

This price is for: **CONCRETING OF THE PIPE CULVERT LINING**

The price includes:

- Concreting of the pipe culvert lining in one-sided formwork with concrete of class C 25/30 on a bed of 10cm thick concrete the class C 12/15 in all according to the drawings

This Price is for per cubic meter

**PRICE N° 130- TITLE: : CONCRETING OF THE PIPE CULVERT LINING**

**Price in words:**

per cubic meter: ..... HRK

**Price in numbers:**

.... HRK

**PRICE N° 131**

**Title : PROCUREMENT, TRANSPORTATION AND INSTALLATION**

Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.

This price is for: **PROCUREMENT, TRANSPORTATION AND INSTALLATION OF STEEL REINFORCEMENT OF CONCRETE STRUCTURES**

The price includes:

- supply,
- delivery,
- cutting,
- straightening,
- placing and
- connecting the reinforcement.
- sorting and cleaning,
- cutting and bending,
- delivery to the construction site,
- transportation and transfers;
- setup,
- lining and binding.

**Title : WEARING COURSE**

Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.

This price is for: Machine-making of asphalt wearing course(AC surf), produced and built-in in hot procedure, type of bitumen and aggregates according to a confirmed working structure

The price includes:

- the purchase and transport of previously machine-made mixtures from aggregates and bitumen as a binder,
- nominal maximum grain size,
- type of stone material and grading according to the provisions in the design and according to: HRN EN 13043:2003 (aggregates), HRN EN 12591: 2009 (paving grade bitumens) and HRN EN 13108-1:2007 (Asphalt), and the loading, transport and mechanical installation (spreading and compaction).
- cleaning of surfaces and procurement,
- transportation and spraying with bituminous emulsion before the performance of the layer in an amount of 0.30 kg/m<sup>2</sup>.

This Price is for per square meter \_\_\_\_\_
