UNIT PRICE CONTRACTS

Content

4.3.1 — Introduction

4.3.2 — Bill of Quantities

LOT 1

LOT 2

4.3.3 — Price Schedule

4.3.4 — Daily works Schedule

VOLUME 4. — INTRODUCTION

1. General

- 1.1 The Bill of Quantities (Volume 4.3.2) is the document containing an itemised breakdown of the works to be carried out in a unit price contract, indicating a quantity for each item and the corresponding unit price. The quantities set out in the Bill of Quantities are estimated quantities. Each price for each item of the Bill of Quantities is detailed in the Price Schedule (Volume 4.3.3).

The amounts due will be calculated by measuring the actual quantities of the works executed and by applying the unit rates to the quantities actually executed for each item.

- 1.2 The Detailed Breakdown of Prices (Volume 4.3.5) is the list containing the basic costs, net costs and mark-ups from which each price on the Bill of Quantities and the Price Schedule and on the Daywork Schedule results.

The Detailed Breakdown of Prices provides the coefficients for applying the price revision formula referred to in Article 48.2 of the Special Conditions and can provide the basis for valuation of additional work ordered referred to in article 37.5 of the General Conditions.

- 1.3 Provisional sums for use when works are to be executed on a daily work basis (Volume 4.3.4) can only be executed by administrative order of the Supervisor in accordance with the terms of the Contract.

2. Specific to Volumes 4.3.2, 4.3.3 and 4.3.4

- 2.1 The prices inserted in the Bill of Quantities and Price Schedule are to be the full inclusive values of the works described under the items, including all costs and expenses that may be required in and for the construction of the works described, together with any temporary works and installations which may be necessary and all general risks, liabilities and obligations specified or implied in the documents on which the tender is based. It will be assumed that establishment charges, profit and allowances for all obligations are spread evenly over all unit rates.
- 2.2 Save where the technical specifications or the Bill of Quantities and the Price Schedule specifically and expressly state otherwise, only permanent works are to be measured.
- 2.3 No allowance will be made for loss of materials or volume thereof during transport or compaction.
- 2.4 The prices do not include taxes and fiscal duties, as exoneration is explicitly given for the contract. Non-exonerated taxes and fiscal duties are covered in the prices of the Bill of Quantities, Price Schedule and Daily work Schedule, apart from those stated separately in the financial offer templates.

2.5 The units of measurement used in the annexed technical documentation are those of the International System of Units (SI). No other units may be used for measurements, pricing, detail drawings etc. (Any units not mentioned in the technical documentation must also be expressed in terms of the SI.) Abbreviations used in the bill of quantities are to be interpreted as follows:

mm	means	millimetre
m	means	metre
mm ²	means	square millimetre
m ²	means	square metre
m ³	means	cubic metre
kg	means	kilogram
to	means	tonne (1000 kg)
pcs	means	pieces
h	means	hour
L.s.	means	Lump sum
km	means	kilometre
l	means	litre
%	means	per cent
N.d	means	nominal diameter
m/m	means	man-month
m/d	means	man-day

VOLUME 4.3.2 — BILL OF QUANTITIES

VOLUME 4.3.3 – PRICE SCHEDULE

<p>PRICE N° 101</p> <p>Title : STAKING OUT OF THE ROUTE AND OF THE STRUCTURES</p>	
<p>Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.</p> <p>This price is for Staking out of the route and of the structures</p> <p>The price includes:</p> <ul style="list-style-type: none"> -all geodetic survey -transferring the data from the design onto the field or vice versa, -provisions for the axis of the staked out route, - profiling, renewal and maintenance of staked out marks on the field during the whole construction period. The work includes -Staking out of the route map and of the structures -production of the geodetic map of as-builts <p>This Price is per kilometer of route</p>	
<p>PRICE N° 101- TITLE: : STAKING OUT OF THE ROUTE AND OF THE STRUCTURES</p>	
<p>Price in words:</p> <p>per kilometer: HRK</p>	<p>Price in numbers:</p> <p>: HRK</p>

PRICE N° 102

Title : REMOVAL OF SHRUBS AND TREES

Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.

This price is for : REMOVAL OF SHRUBS AND TREES

The price includes:

- cutting brushwood and trees of all sizes,
- cutting off the branches,
- cutting of trees and thick branches to the length appropriate for transportation,
- extracting roots,
- brushwood and old stumps,
- extracting stumps of newly cut trees,
- hauling of brushwood, branches, logs and stumps outside the road section, to the dump area at the distance up to 15 km.

This Price is per square meter of area for brushwood and per piece for woods with roots

PRICE N° 102- TITLE: : REMOVAL OF SHRUBS AND TREES

Price in words:

per square meter: HRK
per piece: HRK

Price in numbers:

: HRK

PRICE N° 103....

Title : ... Removing brushwood and branches

Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.

This price is for **Removing brushwood and branches**.

The price includes:

- Removing brushwood and branches

This Price is per square meter

PRICE N° 103... - TITLE: Removing brushwood and branches

Price in words:

per square meter: HRK

Price in numbers:

.... HRK

PRICE N° 104....

Title : ... Removing trees and stumps is accounted per unit

Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.

This price is for: **Removing brushwood and branches taking into account the thickness (profile) of the tree (measured at 1 m height): Ø min. 30 cm**

The price includes:

- Removing trees and stumps

This Price is for one fitted lid _____

PRICE N° 104... - TITLE: Removing trees and stumps is accounted per unit

Price in words:

per piece: HRK

Price in numbers:

.... HRK

PRICE N° 105...

Title : ... DISMOUNTING OF EXISTING STRUCTURES

Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.

This price is for: DISMOUNTING OF EXISTING STRUCTURES, TRAFFIC SIGNS, CONCRETE CURBSTONE, BILBOARDS AND THE OTHER

The price includes:

- Demolition,
- excavation,
- loading,
- transport to dump and organization of dump for removed pavement structure,
- curbstones,
- concrete hollow tiles,
- gutters and dismounting of existing traffic equipment.

This Price is per square meter

PRICE N° 105... - TITLE DISMOUNTING OF EXISTING STRUCTURES

Price in words:

per square meter: HRK

PRICE N° 111	
Title : Torch height fitting lids.	
<p>Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.</p> <p>This price is for torch height fitting lids with the frame of existing wells.</p> <p>The price includes:</p> <ul style="list-style-type: none"> - removing existing caps with frame, - repair damaged parts of the panes, - concrete and reinstall the cover on a particular dimension of the project <p>This Price is unit price for one fitted lid_____</p>	
PRICE N° 111- TITLE: : Torch height fitting lids	
Price in words: per piece: HRK	Price in numbers: HRK

PRICE N° 112	
Title : Adapting to the new grade line covers plumbing	
<p>Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.</p> <p>This price is for Adapting to the new grade line covers plumbing - shutter and water hydrants</p> <p>The price includes:</p> <ul style="list-style-type: none"> - removal and protection in the excavation box with lid , - excavation and concrete hedge trimmer around the cap - relocation to a new dimension specific project -backfill around the lids with compaction and concreting them. <p>This Price is unit price for one fitted lid___</p>	
PRICE N° 112- TITLE: Adapting to the new grade line covers plumbing	

<p>Price in words:</p> <p>per piece: HRK</p>	<p>Price in numbers:</p> <p>.... HRK</p>
---	---

<p>PRICE N° 113</p> <p>Title : Torch height fitting the bearing plate AB</p>	
<p>Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.</p> <p>This price is for torch height fitting the bearing plate AB existing wells major dimensions that are in the project area</p> <p>The price includes:</p> <ul style="list-style-type: none"> -breaking and removing the existing slab, - performance of new concrete slab at a certain elevation in the projecekt panes, <p>This Price is for per square meter</p>	
<p>PRICE N° 113- TITLE: : Torch height fitting the bearing plate AB</p>	
<p>Price in words:</p> <p>per square meter: HRK</p>	<p>Price in numbers:</p> <p>.... HRK</p>

<p>PRICE N° 114</p> <p>Title : Trial excavations</p>	
<p>Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.</p> <p>This price is for Trial excavations to determine the actual position of existing installations under the supervision of representatives of companies whose installations.</p> <p>The price includes:</p> <ul style="list-style-type: none"> -Digging exclusively by hand. <p>This Price is for per cubic meter</p>	

PRICE N° 114- TITLE: : Trial excavations	
Price in words: per cubic meter: HRK	Price in numbers: HRK

PRICE N° 115 Title : TOPSOIL EXCAVATION	
<p>Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.</p> <p>This price is for TOPSOIL EXCAVATION.</p> <p>The price includes:</p> <ul style="list-style-type: none"> -excavation of 15 cm thickness, -hauling of excavation material into dump area <p>This Price is for per cubic meter</p>	
PRICE N° 115- TITLE: : TOPSOIL EXCAVATION	
Price in words: per cubic meter: HRK	Price in numbers: HRK

PRICE N° 116 Title : WIDE EXCAVATIONS	
<p>Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.</p> <p>This price is for WIDE EXCAVATIONS.</p> <p>The price includes:</p> <ul style="list-style-type: none"> - excavations provided in the design, - excavations in the route <p>steps, cutting, hack excavation in deviations of roads and access paths and wide excavations for the construction of structures.</p>	

This Price is for per cubic meter	
PRICE N° 116- TITLE: : WIDE EXCAVATIONS	
Price in words: per cubic meter: HRK	Price in numbers: HRK

PRICE N° 117	
Title : TRANSPORT OF SURPLUS TOPSOIL MATERIAL	
<p>Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.</p> <p>This price is for TRANSPORT OF SURPLUS TOPSOIL MATERIAL AND MATERIAL FROM EXCAVATION.</p> <p>The price includes:</p> <ul style="list-style-type: none"> - transportation of surplus topsoil material, - dredged material from the excavation and all waste material to the point of unloading at the landfill -loading, -unloading, -spreading and planning <p>This Price is for per cubic meter</p>	
PRICE N° 117- TITLE: : TRANSPORT OF SURPLUS TOPSOIL MATERIAL	
Price in words: per cubic meter: HRK	Price in numbers: HRK

PRICE N° 118	
Title : MECHANICAL COMPACTION OF THE FOUNDATION SOIL	
Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.	
This price is for MECHANICAL COMPACTION OF THE FOUNDATION SOIL	
The price includes:	
<ul style="list-style-type: none"> - transportation of surplus topsoil material, - dredged material from the excavation and all waste material to the point of unloading at the landfill -loading, -unloading, -spreading and planning 	
This Price is for per square meter _____	
PRICE N° 118- TITLE: : MECHANICAL COMPACTION OF THE FOUNDATION SOIL	
Price in words: per square meter: HRK	Price in numbers: HRK

PRICE N° 119	
Title : REPLACEMENT OF LOW BEARING FOUNDATION	
Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.	
This price is for REPLACEMENT OF LOW BEARING FOUNDATION SOIL WITH BETTER MATERIAL	
The price includes:	
<ul style="list-style-type: none"> - excavation of low bearing material in foundation, - transport to lanfill, -transport and instalation of crushed stone material 	
This Price is for per cubic meter	
PRICE N° 119- TITLE: : REPLACEMENT OF LOW BEARING FOUNDATION	

Price in words: < per square meter: HRK	Price in numbers: <: HRK>
---	--

PRICE N° 120

Title : TREATMENT OF FOUNDATION SOIL OF POOR BEARING CAPACITY

Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.

This price is for TREATMENT OF FOUNDATION SOIL OF POOR BEARING CAPACITY AND ROAD FOUNDATION WITH GEOSYNTHETICS (GEOGRIDS)

The price includes:

- laying of geosynthetics to the prepared foundation soil, -,
- overlapping and sewing

This Price is for per square meter _____

PRICE N° 120- TITLE: : TREATMENT OF FOUNDATION SOIL OF POOR BEARING CAPACITY

Price in words:

per square meter: HRK

Price in numbers:

.... HRK

PRICE N° 121

Title : MAKING OF SOIL EMBANKMENTS

Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.

This price is for **MAKING OF SOIL EMBANKMENTS**

The price includes:

- mechanical rough and fine levelling, -,
- compacting with smooth rollers or rollers on pneumatics

This Price is for per square meter _____

PRICE N° 121- TITLE: MAKING OF SOIL EMBANKMENTS

<p>Price in words:</p> <p>per square meter: HRK</p>	<p>Price in numbers:</p> <p>.... HRK</p>
--	---

<p>PRICE N° 122</p> <p>Title : EXECUTION OF ROAD FOUNDATION</p>	
<p>Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.</p> <p>This price is for EXECUTION OF ROAD FOUNDATION</p> <p>The price includes: -arranging the placenta,, -, -coarse and fine planning material and compacting to the required compactness</p> <p>This Price is for per square meter _____</p>	
<p>PRICE N° 122- TITLE: EXECUTION OF ROAD FOUNDATION</p>	
<p>Price in words:</p> <p>per square meter: HRK</p>	<p>Price in numbers:</p> <p>.... HRK</p>
<p>PRICE N° 123</p> <p>Title : SLOPE PROTECTION</p>	
<p>Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.</p> <p>This price is for SLOPE PROTECTION BY APPLICATION OF TOPSOIL MATERIAL AND GRASS VEGETATION</p> <p>The price includes: -protection of fill slopes exposed to the activity of small quantities of water,, -, -material supply, -delivery, -spreading and rough levelling of the material</p> <p>This Price is for per square meter _____</p>	

PRICE N° 123- TITLE: SLOPE PROTECTION	
Price in words: per square meter: HRK	Price in numbers: HRK

PRICE N° 124	
Title : EXECUTION OF SHOULDERS OF EARTH MATERIAL	
<p>Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.</p> <p>This price is for SLOPE PROTECTION BY APPLICATION OF TOPSOIL MATERIAL AND GRASS VEGETATION</p> <p>The price includes:</p> <ul style="list-style-type: none"> -protection of fill slopes exposed to the activity of small quantities of water,, -, -material supply, -delivery, -spreading and rough levelling of the material <p>This Price is for per square meter _____</p>	
PRICE N° 124- TITLE: EXECUTION OF SHOULDERS OF EARTH MATERIAL	
Price in words: per square meter: HRK	Price in numbers: HRK

PRICE N° 125	
Title : EXECUTION OF DRAINAGE OPENINGS	
<p>Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.</p> <p>This price is for: EXECUTION OF DRAINAGE OPENINGS</p> <p>The price includes:</p>	

-supply and execution of a thin layer of graded stone material 30/60 mm as an extension of the subbase of the , pavement structure in the shoulder width, on both sides, or only in the width of the lower shoulder, to the manually levelled base, thickness is 0.20., -,

This Price is for per cubic meter

PRICE N° 124- TITLE: EXECUTION OF SHOULDERS OF EARTH MATERIAL

Price in words:

per square meter: HRK

Price in numbers:

.... HRK

PRICE N° 126

Title : EXCAVATION FOR FOUNDATIONS OF CULVERT

Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.

This price is for: **EXCAVATION FOR FOUNDATIONS OF CULVERT**

The price includes:

- foundation and trench excavation for the
- loading,
- transport and disposal of dredged material to the landfill.

This Price is for per cubic meter

PRICE N° 125- TITLE: EXCAVATION FOR FOUNDATIONS OF CULVERT

Price in words:

per square meter: HRK

Price in numbers:

.... HRK

PRICE N° 127

Title : INSTALLATION OF TAMPON GRAVEL LAYER

Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.

This price is for: **INSTALLATION OF TAMPON GRAVEL LAYER FOR CULVERT FOUNDATIONS**

The price includes:

- procurement of natural stone or crushed granular material quality
- distribution according to design requirements and GTC,
- shipping,
- transportation
- installation (machine-spreading, planning and compacting to the required compressibility modulus)

This Price is for per cubic meter

PRICE N° 127- TITLE: INSTALLATION OF TAMPON GRAVEL LAYER

Price in words:

per square meter: HRK

Price in numbers:

.... HRK

PRICE N° 128

Title : INSTALLATION OF CONCRETE PIPES FOR CULVERTS

Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.

This price is for: **INSTALLATION OF CONCRETE PIPES FOR CULVERTS**

The price includes:

- Installation of pipes for concrete culvert Ø1000mm according to details in the design
- Pipes are installed on already prepared concrete foundation in designed slope,
- Backfilling of the trench may begin only after the supervising engineer receives installed pipes and the same before that must undergo a control test - under the regulations for sewage works
- pipe joints

This Price is for per square meter _____

PRICE N° 128- TITLE: INSTALLATION OF CONCRETE PIPES FOR CULVERTS

Price in words:

per square meter: HRK

Price in numbers:

.... HRK

PRICE N° 129

Title : CONSTRUCTION OF THE SPANDREL WALLS OF CONCRETE CULVERT

Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.

This price is for: **CONSTRUCTION OF THE SPANDREL WALLS OF CONCRETE CULVERT**

The price includes:

- procurement and delivery of concrete
- all transportation and transfers
- preparation and dismantling of form work ,
- mounting of concrete and concrete care,
- and all other necessary materials.

This Price is for per cubic meter

PRICE N° 129- TITLE: CONSTRUCTION OF THE SPANDREL WALLS OF CONCRETE CULVERT

Price in words:

per cubic meter: HRK

Price in numbers:

.... HRK

PRICE N° 130

Title : CONCRETING OF THE PIPE CULVERT LINING

Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.

This price is for: **CONCRETING OF THE PIPE CULVERT LINING**

The price includes:

- Concreting of the pipe culvert lining in one-sided formwork with concrete of class C 25/30 on a bed of 10cm thick concrete the class C 12/15 in all according to the drawings

This Price is for per cubic meter

PRICE N° 130- TITLE: : CONCRETING OF THE PIPE CULVERT LINING

Price in words:

per cubic meter: HRK

Price in numbers:

.... HRK

PRICE N° 131

Title : PROCUREMENT, TRANSPORTATION AND INSTALLATION

Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.

This price is for: **PROCUREMENT, TRANSPORTATION AND INSTALLATION OF STEEL REINFORCEMENT OF CONCRETE STRUCTURES**

The price includes:

- supply,
- delivery,
- cutting,
- straightening,
- placing and
- connecting the reinforcement.
- sorting and cleaning,
- cutting and bending,
- delivery to the construction site,
- transportation and transfers;
- setup,
- lining and binding.

This Price is for kilogram_____

PRICE N° 131- TITLE: : PROCUREMENT, TRANSPORTATION AND INSTALLATION

Price in words:

per kilogram: HRK

Price in numbers:

.... HRK

PRICE N° 132	
Title : BACKFILLING OF PIPE CULVERT TRENCH	
<p>Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.</p> <p>This price is for: Backfilling of the trench with sand, earth from the excavation or mixed material.</p> <p>The price includes:</p> <ul style="list-style-type: none"> - transportation, - planning and spreading of the material in layers, - compaction with lightweight means for compaction of soil or manual compactors. <p>This Price is for per cubic meter</p>	
PRICE N° 132- TITLE: BACKFILLING OF PIPE CULVERT TRENCH	
Price in words:	Price in numbers:
per cubic meter: HRK HRK

PRICE N° 133	
Title : CONCRETE CURBSTONES	
<p>Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.</p> <p>This price is for: Installation of concrete curbstones</p> <p>The price includes:</p> <ul style="list-style-type: none"> - Supply and installation of concrete curbstone of cross section 18/24 cm and 8/20 cm to the previously executed base of fresh concrete, according to the detail from the design. <p>This Price is for per square meter _____</p>	
PRICE N° 133- TITLE: CONCRETE CURBSTONES	
Price in words:	Price in numbers:
per square meter: HRK HRK

.... HRK

PRICE N° 136

Title : WEARING COURSE

Description of the implementation modalities of the works comprised within this price, as well as the measurement modalities of the quantities executed and to be paid by this price.

This price is for: Machine-making of asphalt wearing course(AC surf), produced and built-in in hot procedure, type of bitumen and aggregates according to a confirmed working structure

The price includes:

- the purchase and transport of previously machine-made mixtures from aggregates and bitumen as a binder,
- nominal maximum grain size,
- type of stone material and grading according to the provisions in the design and according to: HRN EN 13043:2003 (aggregates), HRN EN 12591: 2009 (paving grade bitumens) and HRN EN 13108-1:2007 (Asphalt), and the loading, transport and mechanical installation (spreading and compaction).
- cleaning of surfaces and procurement,
- transportation and spraying with bituminous emulsion before the performance of the layer in an amount of 0.30 kg/m².

This Price is for per square meter _____
